

Concord University Child Development Center

Child's Name: _____

Integrated Pest Management Policy Notification to Parents

WV Law requires parents to be notified of the application of pesticides within the Child Development Center building. These pesticides are applied to control ants, roaches, silverfish, etc. Pesticides shall not be applied unless monitoring indicates pests are present and non chemical pest management methods have been exhausted.

If you wish to be notified by the Center of the application of pesticide spraying, please complete the request notification form below and return to the center. You will be notified 24 hours prior to any pesticide spraying in our building.

_____ I do wish to be notified of the application of spot or space treatment of pesticides at the center.

_____ I do NOT wish to be notified of the application of spot or space treatment of pesticides at the center.

Parent's Signature: _____ Date: _____

Immunizations Statement of Understanding

I am enrolling my child in the CASE/Concord Child Development Center with the understanding that there is a risk of my child being exposed to and/or contracting a childhood disease or illness.

_____ My child has received immunizations.

_____ My child has NOT received immunizations.

If no immunizations have been received, please state reason:

Parent's Signature: _____ Date: _____
